George and Terry Goulet are bestselling Canadian authors and public speakers about Louis Riel and the Métis. Among many accolades, they have been referred to in the media as “esteemed” and as “Métis scholars”. They are included in Wikipedia’s list of “prominent Canadian historians”. Among their many factual historical books are The Trial of Louis Riel: Justice and Mercy Denied; The Métis Memorable Events and Memorable Personalities; and The Métis in British Columbia: from Fur Trade Outposts to Colony.

Prior to retirement George was a practicing lawyer for 35 years, and Terry was a legal editor and indexer for an international legal publishing firm. Since retirement George and Terry have pursued a mission to raise the self-esteem of their Métis people and to make the Métis in various communities proud of their history, heritage and culture. In doing so, they have also educated thousands of Canadians about Louis Riel and the Métis.
